

## Validation Resources Limited Safety Statement

Validation Resources Limited is committed to the protection of human health, safety and the environment in all aspects of its work and commercial operations.

A Risk based approach is applied to all Engineering activities, along with Current Good Engineering Practices. Hazards or Potential risks are documented and assessed prior to the commencement of any Engineering activities.

### **Note:**

This safety statement is reviewed on an annual basis, or if new or modified work practices are introduced. All employees are trained on this safety statement. Hence, it is the responsibility of every employee to work safely and to report practices or conditions which pose recognised or unacceptable risks to health and safety
